

**IMPROVED COMFORT,
DESIGN + STYLE**

BODYPOINT® PUSH-BUTTON BUCKLE

LOOKS AS GOOD AS IT PERFORMS

The new Bodypoint® Push-Button Buckle is sleek and low profile. Engineered for comfort and performance, this new design offers a range of features that therapists and users have requested for years.

Light Weight • Durable • Low Profile • Easy to Clean • Assisted Spring Release

Our interchangeable covers snap on and off with ease! Just follow these easy steps.

To open:

The patented construction allows for removal of the push-button buckle cover for easy cleaning, or to change the desired button hole size—in effect providing three buckle options in a single design.

Lighter weight (1/3 lighter than comparable push-button models) with rounded edges that improve comfort and prevent snagging on clothing.

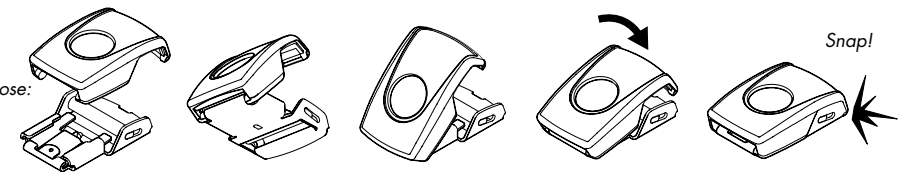

Chrome-plated steel construction for superior strength and durability. Lower profile for a less bulky appearance.

Optional covers:
Reduced Access Cover (14mm)
Security Cover (6mm)
Both covers sold separately.
