

NEW!

Bodypoint Essentials Two-Point Padded Hip Belts

New Bodypoint Essentials Hip Belts have been value-engineered to offer you a cost-effective, high-quality, ISO-tested product with trusted Bodypoint features. Available with a Side-Release Buckle or our new strong-but-lightweight DuraLatch™ Buckle.

CORDURA® fabric outer layer and proprietary edge binding eliminate wrinkles, preserve skin integrity and comfort, and increase durability and dirt-resistance

NEW DuraLatch™ Buckle* offers the same innovative features as our Rehab Latch™ Buckle, but at half the weight and with a more discreet appearance

Proprietary nylon webbing is tightly woven to resist abrasion and prevent twisting, yet flexible enough for easy tightening through the buckle

Pads made with closed-cell foam for superior resiliency and pressure distribution, while soft, wrinkle-free fabric lining optimizes comfort

Folded end stop with teal accents is easy to locate and grasp

Metal-reinforced Plastic Flat-Mount™ end-fittings

	DuraLatch™ Buckle*	Side-Release Buckle
Buckle Features	Compact aircraft-style buckle with patented design created specifically for CRT use; Easy to operate for those with limited hand function, plus a two-stage release with wide 70° opening angle to minimize accidental detachment; strong but lightweight	Familiar design is lightweight, crush-resistant, and prevents accidental release
